Cancer Biomarkers**
Norwegian Centre of Excellence – University of Bergen

PROGRAM – 2nd CCBIO Junior Scientist Symposium August 28th 2014

Auditorium 4, BBB

Registration: <https://skjemaker.app.uib.no/view.php?id=553893> (deadline August 26th)

Symposium Chairs: Camilla Krakstad & Elisabeth Wik

10.00-10.45 Gro Vatne Røslund

Trial lecture: Role of quiescent tumour cells in therapy resistance and cellular differentiation

10.45-11.00 Break

11.00-11.20 Erling Høivik

Exome sequencing of matched primary and metastatic tissues in endometrial cancer

11.20-11.30 Info CCBIO-901

11.30-12.30 Lunch

12.30-12.50 Cornelia Schuster

Predictive markers for treatment with bevacizumab monotherapy in metastatic melanoma

12.50-13.10 Maria Omsland

Cell-to-Cell Communication in Acute Myeloid Leukemia by Tunneling Nanotubes

13.10-13.20 Break

13.20-13.40 Jan Roger Olsen

Signal transduction and transcription factor activation in prostate cancer

13.40-14.00 Even Birkeland

The rationale behind a proteomics approach to discover breast cancer biomarkers
