

Lunch and Learn Seminar

with

Akoya Biosciences

Spatial Proteomics: Advances in Oncology and Neuroscience

Weds 9th April @ 12noon – 1.30pm incl. Lunch
Birkhaugsalen Auditorium
Central Hospital Building
Bergen University Hospital

Discover how Akoya's platforms are leading the way in spatial proteomics, enabling researchers to:

- *Work with human and mouse tissues + organoids*
- *Perform single-cell phenotyping in-situ*
- *Resolve tissue heterogeneity across disease states*
- *Detect > 50 proteins in a single imaging experiment*
- *Identify novel, tissue-based biomarkers*

PhenoCycler®-Fusion 2.0

Spatial Discoveries at YOUR Scale

Backed by >1000 peer-reviewed publications, our platforms are leading the way in Spatial Biology
