

This is an invitation to the Bergen Postgraduate School of Clinical Medical research (Forskerskolen I Klinisk Medisin) Networking Luncheon. We have three presentations this time. The topics are unique and touch upon quite different diseases, but all regard conditions that mostly affect women (although much more common in women, men can also get breast cancer).

Women's health

1. Anna Berg, PhD candidate, Department of Obstetrics and Gynecology, Haukeland University Hospital. *Title: "Exploration of Biomarkers in Premalignant Endometrial Lesions."*
2. Astid Rygh, PhD candidate, Department of Obstetrics and Gynecology, Stavanger University Hospital. *Title: "Obsteric anal sphincter rupture – a population-based study of improvement of care."*
3. Bård Mannsaker, PhD candidate, The Breast Cancer Research Group, Haukeland University Hospital. *Title: "Expression of MDM2 splice variants and their role in response to chemotherapy in cancer cells."*

Time: Tuesday 19. November 2013 at 11.30.

Place: Conference room (109F, vis-a-vis the auditoriums), BBB

After the presentations we serve a delicious lunch (free of charge). Please send me an e-mail if you are interested in participating:

hildur.skuladottir@gmail.com.

Best regards,

Hildur Skuladottir

On behalf of the Networking Committee
