

Board 2015:

- Prof. Stefan Johansson, leder (K2) • Overlege Camilla Tøndel (Haukeland universitetssjukehus)
- Prof. Lars Bø (K1) • Postdoc Silje Skrede (K2) • Ph.d student Maria Omsland (K2)
- Ph.d student Carine Lindquist (K2) • Irene Lavik Hjelmaas (K2), sekretær

Poster presentations from 2015

Wednesday 27th of January 2016 at 08.30
The Foyer at Haukeland University Hospital
Program

08.30 10-year follow-up of patients treated by radiofrequency ablation for right ventricular outflow tract tachycardia/premature ventricular contractions
Synne Rørvik, K2

08.36 Cardiac surgery for infective endocarditis in patients with intravenous drug use
Oda Østerdal, Helse-Bergen

08.42 Self-reported health status, symptoms and clinical course in conservatively treated patients with aortic stenosis
Kjersti Oterhals, K2

08.48 The association between serum apo B and acute myocardial infarction is modified by plasma glycine
Gard Frodahl Tveitevåg Svingen, K2

08.54 Cross mapping can identify the mechanisms of atrial tachycardia post atrial fibrillation ablation
Wang, Yu-Chuan, K2

09.00 Increase of Power could Enhance Effectiveness of Radio Frequency Ablation at the same Force-Time Integral level
Libin Shi, Helse-Bergen

09.06 Impacts of Power and Force-Time Integral on Ablation Effect under Unstable Catheter Position during Atrial Fibrillation Ablation
Libin Shi, Helse-Bergen

09.12 PAUSE

09.20 Productivity loss in COPD: Results from the BOLD study
Rune Grønseth, K2

09.26 Moved

09.32 Peak oxygen uptake and breathing pattern in COPD patients – a four year longitudinal study
Bente Frisk, K2

09.38 Unemployment in COPD: Results from the BOLD study
Marta Erdal, K2

09.44 Growth Differentiation Factor-15 is a predictor for COPD exacerbations and survival.
Gunnar Husebø, K2

09.50 PAUSE

10.00 Pasienter og foreldres opplevelse av spastisitetsbehandling av barn med cerebral parese
Aanen Aarli, Helse-Bergen

10.06 The Norwegian Spinal Cord Injury Registry Results from 2011-2013
Tiina Rekand, Helse-Bergen

10.12 MS-relapses Phone; a clinical pathway
Anne Britt Rundhovde Skår, Helse-Bergen

10.18 Tissue and imaging biomarkers for hypoxia predicts poor outcome in endometrial cancer
Anna Berg, K2

10.24 CD133 and LGR5 characterize stem-cell like subtype of colorectal cancer
Luka Stanisavljevic, K2

10.30 The prognostic impact of an EMT (Epithelial Mesenchymal Transition) related protein score in endometrial cancer obtained by RPPA (Reverse Phase Protein Arrays)
Henrica Maria Johanna Werner, Helse-Bergen

10.36 PAUSE

10.50 Anti-Proliferative Activity of the NPM1 and CRM1 Interacting Natural Product Avrainvillamide in AML
Vibeke Andresen, K2

10.56 Combining Chlorpromazine and Valproic acid in nanoparticles as a novel treatment of acute myeloid leukemia
Benedicte sjo Tislevoll, K2

11.02 Hydroxyurea Synergizes with Valproic Acid in Wild-Type p53 Acute Myeloid Leukaemia
Calum Leitch, K2

11.08 The p53 protein biosignature reflects intrinsic cell death regulation and in vitro response to Hsp90 and mTor inhibitors in human acute myelogenous leukaemia cells
Sigrun Margrethe Hjelle, K2

Poster presentations from 2015

11.14 The Effect of NPM1-Interfering Drug-KPT-330 on Modulation of p53 Biosignature

EhsanHajjar, K2

11.20 Expression of integrin α -11 by carcinoma associated fibroblasts modulates oral squamous cell carcinoma behaviour

Saroj Rajthala, K1

11.26-12.16 LUNCH

12.16 Fitness is not associated with lower prevalences of hypertension subtypes or metabolic syndrome in obese subjects

Hilde Halland, K2

12.22 It is difficult to talk about, but I think it can help me

Nina Elisabeth Hjorth, Helse-Bergen

12.28 Effects of electroconvulsive therapy on metabolites in the brain - a prospective case-control study

Vera Jane Erchinger, K1

12.34-12.40 SHORT BREAK

12.40 Dominant Autoimmune Regulator mutations associated with common organ-specific autoimmune diseases

Bergithe E. Oftedal, K2

12.46 Can the influenza vaccine response be predicted in COPD patients by clinical parameters?

Tomas Mikal Eagan, K2

12.52 Prevalence of *Cryptosporidium parvum*/ *hominis*, *Entamoeba histolytica* and *Giardia lamblia* among infants and young children in Dar es Salaam, Tanzania - a case-control study

Marit Gjerde Tellevik, Helse-Bergen

12.58 Improved diagnosis of extrapulmonary tuberculosis by antigen detection in extrapulmonary samples by immunochemistry-based assay

Melissa Jørstad, Helse-Bergen

13.04 Basofil aktiveringstest (BAT) til bruk ved allergidiagnostikk

Ragnhild Stenberg Berg, Helse-Bergen

13.10 Elevated phosphorylated stress kinase p38 in peripheral blood monocytes of nearby employees after a chemical explosion

André Sulen, K2

13.10-13.20 PAUSE

13.20 A black mask covered his face...a death-mask". Experiences of delirium in octogenarians after aortic valve replacement

Irene Instenes, Helse-Bergen

13.26 Experiences of post-operative delirium in octogenarian patients after transcatheter aortic valve implantation or surgical aortic valve replacement - a qualitative interview study

Irene Instenes, Helse-Bergen

13.32 Perceived control and self-assessed general flexibility in treatment-seeking patients with Obsessive Compulsive Disorder

Silje Holm, Helse-Bergen

13.38 Sensory Processing Sensitivity in Obsessive-Compulsive Disorder (OCD)

Thomas Eilertsen, Helse-Bergen

13.44 The endophenotype of emotional regulation in obsessive-compulsive disorder

Anders Lillevik Thorsen, Helse-Bergen

13.44-13.50 PAUSE

13.50 Volume estimation of the gallbladder 2D vs 3D ultrasound

Karoline Kjellsdotter Søvig, K1

13.56 Bruk av Gentamicin -En utfordring for helsearbeidere?

Lene Sæther, Helse-Bergen

14.02 In project: Preanalytical Resource Centre Laboratory of Clinical Biochemistry, Haukeland University Hospital

Marit Sverresdotter Sylte, Helse-Bergen

14.08 Associations between weight-related anthropometric traits and lifestyle factors in 3,063 Norwegian children aged 4-15 years: A case for measuring skinfold thickness

Hege Kristiansen, K2

14.14 END

Award ceremony at the Foyer at Haukeland University Hospital Friday 29th of January at 12.00
