

The 4th Norwegian Microbiology Meeting

April 13th-15th, 2016 - Quality Hotel Sarpsborg

This meeting is the fourth meeting that seeks to gather junior scientists, post doctors, and PhD students working in Norwegian institutions and companies in the area of microbiology. The goal of the NoMi 2016 meeting is to create a fruitful environment for young and aspiring scientists to discuss and interact scientifically with each other.

The meeting will take place at Quality Hotel & Resort in the historic town of Sarpsborg. Participants will also be invited to Inspiria Science Center, an interactive science center where you will get to know each other by experimenting and exploring exhibits in technology and natural sciences.

Participants are encouraged to present their work as an oral presentation or in our poster session. Submission of abstracts will open in January 2016.

For more information see NoMi-16 webpage: <http://bit.ly/nomi-16>
