Tittel: [POST@uib.no] partnership - Norwegian Financial Mechanism 2009-2014 within the Bilateral Fund

Dear Sir/Madam,

I represent The National Health Fund, Poland – a state-owned institution responsible for purchasing health care services for our beneficiaries . The Fund is responsible for financing health care and reimbursement of medicines within the assigned budget.

As a health care institution we are interested in applying for financing from the EEA Financial Mechanism/Norwegian Financial Mechanism 2009-2014 within the Bilateral Fund at the level of the Operational Program *PL07 Development and better adaptation of health care to demographic and epidemiological trend*. If we are awarded a grant from the Program, we are allowed to conclude a Partnership Agreement with a chosen institution.

In order to improve general health, reduce cancer mortality and incidence rate we intend to develop an application for iOS or Android and a trailer that will be used for health promotion and prevention of lifestyle-related oncologic diseases. Considering the possible grant amount, we will probably concentrate on cancer prevention, nutrition and diet. **Therefore we are searching for a Partner from Norway who can provide us with information and advice on the process of development and implementation of smartphone applications for healthcare promotion. We would like to share professional knowledge with the Norwegian partner in the field of cancer control and prevention as well as systemic measures that can be applied in health promotion and disease prevention.**

I would be most grateful if you would look into this matter at your earliest convenience.

Thank you for your assistance in this matter.

I look forward to hearing from you.

Best regards

Anna Chwalek
