### Information meeting on Digital Life Norway – New call for Researcher Projects

The Centre for Digital Life Norway (DLN: <http://www.ntnu.edu/dln>) is a joint national effort to form a new direction in Norwegian biotechnology. DLN is a virtual centre, hosted by NTNU, UiO and UiB, financed under the “[Digital Life – Convergence for innovation](#)” initiative by RCN’s BIOTEK2021 programme. The DLN recently celebrated its initiation in Trondheim along with the six projects so far hosted by the Centre. However, the DLN project portfolio will expand. In early June RCN BIOTEK2021 will announce a [new call](#) for further projects to join DLN. In connection with the new call we will arrange an information meeting at UiB on the 6<sup>th</sup> of June to present DLN along with important aspects of digital life projects.

*Venue: Large Auditorium HIB, Thormøhlens gate 55*
