

Small Animal MRI Course

MIC is happy to announce a basic course in **magnetic resonance imaging (MRI)** of small animals, with the aim of giving the participants knowledge on the principles, the theory and practical use of MRI.

The theoretical part of the course will cover multimodal imaging and the theoretical aspects of MRI. The participants will get hands-on practical training on the instruments in the practical part and learn about basic image analysis of MR images.

After the course, the participants should be able to understand how to plan and perform MRI experiments on small animals.

- When:** March 16th – 17th, 2023
- Where:** The Dept. of Biomedicine and the Animal Facilities
- Price:** NOK 2000,- (incl. course material)
- Registration form:** <https://skjemaker.app.uib.no/view.php?id=3868405>
- Reg. deadline:** March 6th, 2023
- More info:** www.uib.no/rg/mic
