

Workshop: Statistics in Clinical Trials

7th and 8th of May 2026

Protonbygget, 1st Floor, Room Fløyen
Haukelandsbakken 48, 5021 Bergen

Join us for an interactive workshop on Statistics in Clinical Trials, where clinicians, clinical researchers and statisticians come together to explore methods, share experiences, and enhance collaboration in designing and analyzing clinical research. The workshop is arranged by the C-MYC Center, led by Chief Physician Bjørn Tore Gjertsen.

Program 7th of May

- 09:00 Nina Louise Jebesen: Welcome
- 09:10 Icebreaker
- 09:30 Amy Kirkwood: Clinical Trial design - a statisticians' perspective
- 09:50 Nina Louise Jebesen: Clinical Trial design - a trialist's perspective
- 10:10 Break
- 10:30 Project presentations
- 12:00 Lunch
- 13:00 Workshop
- 14:45 Short break
- 15:00 Amy Kirkwood and Ourania Dafni: Sample size calculations for clinical studies
- 16:15 Iriini Ktoridou-Valen: Summary
- 16:20 End of the day

Program 8th of May

- 08:30 Iriini Ktoridou-Valen: Welcome
- 08:40 Ourania Dafni and Amy Kirkwood: The importance of randomization and how to deal with deviations from it
- 10:00 Short break
- 10:15 "Bias within your study and how to avoid it from the start" combined with interactive session for clinicians, clinical researchers and statisticians
- 12:15 Lunch
- 13:15 Ourania Dafni: Clinical benefit
- 14:00 Break
- 14:05 How did the statisticians' input improve your study design?
- 15:00 End of the day

Academic responsible: Ida Viktoria Herdlevær
